The Reem is Back Yet Again

There aren't many fighters in the UFC that a Kickboxing fan can look at anymore and say, "yeah, that is my guy right there." The same can be said for fans of Japanese MMA or even non-Zuffa MMA and Alistair Overeem embodies all of those things right now. In a way, I look at Alistair Overeem as the last true hero in MMA, something that I know a lot of people might not agree with, but he is. Sure, talk about horse meat, steroids, backne and whatever else all you want, but at the end of the day, Alistair Overeem is a monster -- a talented one at that -- and he could do amazing things in the UFC. If he does is still yet-to-be-seen, but his camera crew is still following him and we're still supporting him.
